

## Anti-SOX11 Antibody [SOX11/3235R] - BSA and Azide free (A253200)

## Specifications:

Name: Anti-SOX11 Antibody [SOX11/3235R] - BSA and Azide free

Description: Recombinant rabbit monoclonal [SOX11/3235R] antibody to SOX11.

Specificity: This antibody recognizes a protein of ~47kDa, identified as SOX11. This MAb is highly

specific and does not cross-react with other members of the SOX-family. Mantle cell

lymphoma (MCL) accounts for 5% to 10% of mature B-cell neoplasms and is an aggressive

disease genetically characterized by overexpression of Cyclin D1. Cyclin D1

overexpression is the hallmark of MCL. However, approximately 5%-10% of MCLs lack Cyclin D1 expression and may be misdiagnosed. Almost all Cyclin D1-positive as well as

Cyclin D1-negative MCL, show overexpression of SOX-11. The detection of this transcription factor is a useful biomarker for identifying true cyclin D1-negative MCL.

Applications: IHC-P

Recommended Dilutions: IHC-P: 2-4 µg/ml

Reactivity: Human

Immunogen: Recombinant fragment, around amino acids 300-400, of human SOX11 protein. The exact

sequence is proprietary.

Host: Rabbit

Clonality: Monoclonal

Clone ID: SOX11/3235R

Isotype: IgG

Light Chains: kappa

Conjugate: Unconjugated

Purification: Protein A/G chromatography.

Concentration: 1 mg/ml

Product Form: Liquid

Formulation: Supplied in 10mM Phosphate Buffered Saline; without Sodium Azide and carrier free.

Storage: Shipped at 4°C. Upon delivery aliquot and store at -20°C. Avoid freeze / thaw cycles.

General Notes: This monoclonal antibody is also available in a different formulation with BSA and Sodium

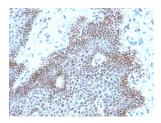

Azide - Anti-SOX11 Antibody [SOX11/3235R] (A250020).

Disclaimer: This product is for research use only. It is not intended for diagnostic or therapeutic use.
